POSITION: Stormwater Program Technician (DPW)

DEPARTMENT: Department of Public Works

SALARY: \$65,826

WORK LOCATION & HOURS: 449 New Salem Rd. Voorheesville, NY 12186, 7:30am-4:00pm

BENEFITS:

- ▶ Paid Time-Off
- ▶ Tuition Reimbursement
- ▶ NYS Retirement
- ▶ Health, Dental, Vision and Hearing
- ▶ Employee Assistance Program

DESCRIPTION:

Responsible for compliance with federal, state and local regulations governing the management of stormwater related to Albany County's permit requirements. Responsible for the development, implementation and coordination of a Municipal Stormwater Management Program as mandated by the United States Environmental Protection Agency and the New York State Department of Environmental Conservation. Ensure compliance with federal, state and local regulations, and participates in the municipality's program including regulatory audits, plan review, field inspection, illicit discharge elimination and actions to remedy violations. The position involves technical/administrative work for all environmental engineering responsibilities for the Albany County Department of Public Works (ACDPW). An employee in this title is also responsible for reviewing stormwater management plans and reports that pertain to construction site plans, performing site inspections and enforcing regulations for erosion, sedimentation and run-off controls, waste management and illegal discharges.

MINIMUM QUALIFICATIONS: EITHER:

- A. Graduation from a regionally accredited or New York State registered college or university with a Bachelor's Degree in Civil Engineering, Hydraulic Engineering, Environmental Engineering, Natural Resource Management, Regional Planning, Stormwater Management, Environmental Planning, Environmental Science, Conservation Biology, Physical Geography, Geology, Landscape Architecture, Physical or Natural Science and one (1) year of experience developing and implementing a stormwater program and/or civil engineering for the design, installation and maintenance of stormwater systems; OR,
- B. Graduation from a regionally accredited or New York State registered college or university with an Associate's degree from a NYS registered or regionally accredited college with specialization in engineering, landscape architecture, natural resources, soil science, hydrology, or environmental studies, construction technology, or civil engineering technology and three (3) years of experience developing and implementing a stormwater program and/or civil engineering for the design, installation and maintenance of stormwater systems.

SPECIAL REQUIREMENTS:

Candidates must either possess at the time of appointment or obtain within two (2) years of appointment a certification as a Professional in Erosion and Sediment Control (CPESC); Must possess at time of appointment a valid NYS driver's license and maintain throughout employment.

Please submit a resume and copies of certifications with your application.
